

The Planets of Our Solar System

Miss Sydney Hovey

About Me!

Firstly, let's introduce our planets.
The gang is all here!

Now, to get a little more information on each of these fabulous planets!

Mercury

Venus

Earth

Mars

Now, to get a little more information on each of these fabulous planets!

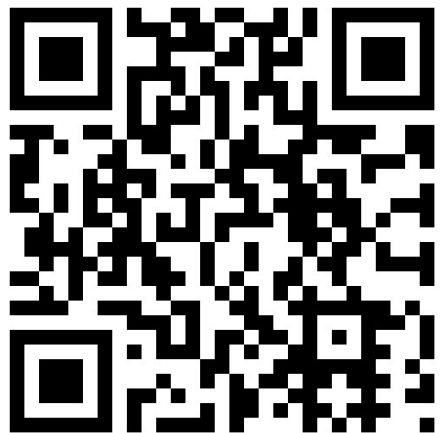

Jupiter

Saturn

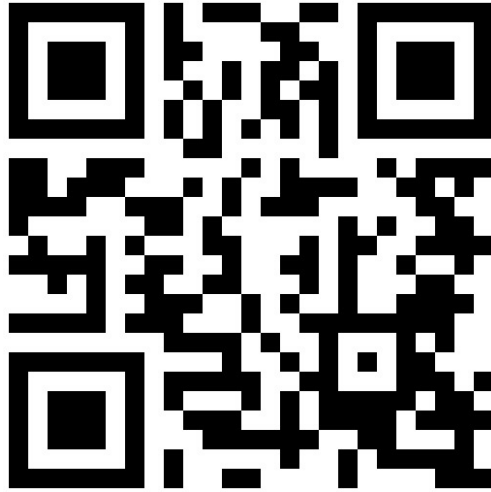

Uranus

Neptune

Our First Question.

Check out these other cool resources!
(HINT: These will help you on your
planetary projects!)

If you're interested in seeing how these planets look in their natural environment, check out these simulations!

A little humor since you're almost there!

Don't forget this question!

Our third question.

Finally, your exit ticket.
